Helping You Remember

Gold Wedding Package

Our gold wedding package includes a full day of photography capturing as many memories as we can. We typically deliver 400+ finished images per wedding. We post-process every image in Adobe Lightroom & Photoshop to maximize quality. All images are placed in a private online gallery and the bride is provided with a password that she is welcome to share with family and friends. The bride also receives all the images on USB thumb-drive with a print release to have them printed anywhere. Engagement or bridal shoot included. Cost is \$1200.
